## Integrated Solutions for Parts Obsolescence

We offer complete solutions for hard-to-find parts for legacy defense systems. Our integrated approach covers every step, including:

- **Comprehensive Engineering**
- **Thorough Qualification**
- **Agile Manufacturing**
- **Assured Delivery**

## Proven Fast Response

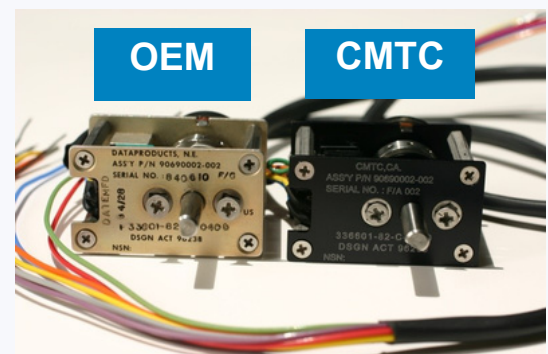

We deliver engineered, fully qualified first article parts within weeks to months. Our expertise spans military aviation, land, and maritime systems, including:

- **Air Force: KC-135**
- **Air Force: B-52**
- **Marine Corps: Light Armored Vehicle (LAV)**
- **Navy: Sea Sparrow Missile Systems**
- **Navy: Surface Targets**

## Multiple Sources Ensure Long-Term Viability

Unlike single-source approaches, we provide multi-source manufacturing options, ensuring long-term parts availability. Our extensive California supplier network allows us to consistently deliver high-quality parts, addressing Diminished Manufacturing Source (DMS) challenges for the long haul.
